

ETHEREUM CLASSIC

Ethereum Classic is a simple, easy-to-use decentralized platform where applications can be run exactly as intended without any disruptions or censorship.

Ethereum Classic consists of a cryptocurrency (ETC), a blockchain ledger, and an ecosystem of applications and services that run on top of it.

Features:

- No control of network by people. The platform is by the people, for the people.
- Information is secured and non-tamperable.
- Neutral platform where contracts are honored forever.
- Can buy and use Ether, the native cryptocurrency.

A Little Bit about Ether (ETC)

MARKET CAP:

\$575,630,383 USD

CIRCULATING SUPPLY:

116,313,299 ETC

MAX SUPPLY:

210,000,000 ETC
